NFPA Standards for Paint Booths and Paint Mix Rooms

In this seminar we will discuss the NFPA standards for paint spray booths and paint mix rooms that address:

- design
- construction
- installation
- operation and maintenance

Led by Geoff Raifsnider of Global Finishing Solutions located in Osseo, Wisconsin, this seminar will consist of a multi part PowerPoint presentation with intermissions for questions and answers.

Geoff is a professional engineer with a Bachelors Degree in Mechanical Engineering. His responsibilities include keeping the company up to date with current industry standards and participation in the code development process. Geoff is a Principal member of the NFPA Technical Committee on Finishing Processes. This committee is responsible for NFPA 33 Standard for Spray Application Using Flammable or Combustible Materials. Geoff is also a member of the NFPA 86 Standard for Ovens and Furnaces TC Task Group for Class A ovens.

Address **1240 W River Pkwy**
Minneapolis, MN 55401
